Los Alcazares (pronounced 'los-al**CA**tha-res') is situated in the Murcia region of south-eastern Spain, also known as the Costa Calida. The town sits on the western shore of the Mar Menor, a saltwater lagoon separated from the Mediterranean Sea by a 22 kilometre long strip of land called La Manga. The area enjoys an average of **320 days of sunshine** each year. Bars, cafes and restaurants provide drinks, tapas, meals and entertainment, and the warm water of the Mar Menor helps make the town a paradise for bathers and water sports enthusiasts. The mineral-rich water of the Mar Menor is revered for its health-giving properties and the town still has thermal baths which have existed since Roman times. The fertile countryside (la huerta) inland, supplies the local street markets with fresh produce which is also exported to northern Europe, especially during the winter when local farmers take advantage of the comparatively warm weather. Throughout the year, the area offers boundless opportunities for sports and other activities. **Golfers will be delighted as several golf courses can be found within a short drive from the town.**

The immediate area is very flat and ideal for walking and cycling.  
There are 2 bikes available at the villa for your use ( at your own risk ).
